Rome, *September* 15. N. S.

THE Abbot *Palucci*, who now reſides here on the part of the Elector of *Saxony*, King of *Poland*, does very much preſs the Pope, to declare himſelf in favour of his Maſter, which would be of great advantage to his Affairs in that Kingdom; The Biſhop of *Cujavia* and ſeveral other Biſhops of *Poland*, have writ to the Pope on the ſame Subject; but hitherto he avoids returning any Anſwer in Writing, being deſirous firſt to ſee how things are like to go there upon the Prince of *Conti*'s arrival, and in the mean time Cardinal *Spada*, the Chief Miniſter, feeds both ſides with fair Words and Promiſes.

Leghorne, *Sept.* 16. On the 11th Inſtant came into this Road a French Man of War with 4 Merchant Ships from *Toulon*, bound for *Smirna* and *Conſtantinople*, and the 14th arrived here two other French Frigats with one Merchant Ship, the latter bound likewiſe to the *Levant*. We have Advice from *Sardinia*, that two ſmall Spaniſh Privateers have lately taken near that Iſland a French Ship richly laden from *Alexandria*.

Venice, *Sept.* 21. Here has been great Rejoycing for the Victory which the Imperialiſts have obtained over the Turks in *Hungary*, and yeſterday *Te Deum* was Sung in the Chapel of *St. Mark*, at which the Doge and whole Senate aſſiſted. By the laſt Letters from the *Levant* the Venetian Fleet was in the Port of *Andros*; and that of the Turks at *Scio*. They are fitting out here another Convoy for the *Morea*, which may be ready to depart in a fortnight; and 'tis ſaid the Senate intend to appoint a new Captain-General to command their Forces againſt the Turks.

Warſaw, *Sept.* 21. The King of *Poland*'s Coronation, and his Reſolution to march immediately hither with the Forces he has with him at *Cracow*, has very much broke the Meaſures of the Primate, and thoſe that adhere to him, who ſeeing no ſafety for them here, are retired to *Lowitz*, a place of good Strength, where they intend to expect the Prince of *Conti*, and in the mean time have ſent out Circular Letters, by which they deſire all the Gentlemen of their Party, to meet together on the 10th of *October*, and have aſſigned them Three Places of Rendezvous; This ſeems to be their laſt Effort; and we ſhall quickly ſee the ſucceſs; thô, according to the preſent diſpoſition of things, they have but little reaſon to believe 'twill be to their advantage.

Dantzick, *Sept.* 25. This City, who is deſirous to maintain a Neutrality, during the preſent Diſpute in *Poland*, is brought under ſome difficulty by the Prince of *Conti*'s arrival this morning with *Dubart*'s Squadron, near this place; He writ a Letter to our Magiſtrates to acquaint them with it; and after much Conſultation, they have ſent an Anſwer, by which they expreſs much Reſpect to his Perſon, and offer him, and ſome few Attendants, a paſſage through this City, but deſire he will not bring any Soldiers with him; and at the ſame time they have ſent a Party of Horſe to *Termunde*, to hinder their landing, in caſe they ſhould attempt it; We are now expecting to hear what Reſolution the Prince of *Conti* will take; 'Tis very likely he will come aſhore here, but whether the poſture of Affairs in *Poland* will invite him to go further, is what muſt be left to our next Letters.

Vienna, *Sept.* 21. The late Victory over the Turks in *Hungary* is at preſent the great Subject that entertains every body here; You have already been told all the material Circumſtances of it; The Conduct of Prince *Eugene* of *Savoy* is highly commended on this occaſion, as well as the bravery of the whole Army; The laſt Letters make the Enemies loſs much greater than what we heard before; 'Tis certain very few of their Foot, that were encamped on this ſide the *Theyſſe*, eſcaped, and after the Fight many of the Turks who fled from their ſecond Camp, were overtaken by our Huſſars, and deſtroyed; and ſuch was the diſorder and Precipitation, with which the Sultan abandoned it, that he left every thing behind him; 120 Pieces of Braſs Cannon were found in the two Camps, with a great number of Camels, Horſes, and Oxen, which ſerved for the uſe of the Artillery, Baggage, and Proviſions; Few Priſoners were taken; and 'tis confirmed by all hands, that the Grand Viſier and Aga of the Janiſaries are among the ſlain; The Sultan's own Tent is brought hither, with a great many Standards; The Imperial Army, after having refreſhed themſelves 2 or 3 days, were, when the laſt Letters came away, going to decamp, and to march towards *Temeſwaer*, with a reſolution to attack that place; and ſeveral Ingeniers are going from hence, to ſerve in the Siege. The Emperor has received a Letter from the King of *Poland*, acquainting him with his Coronation, and the good condition of his Affairs in that Kingdom; and from other hands we are told, that he intends to be at *Warſaw* about the end of this month.

Cologne, *Sept.* 30. Prince *Lewis* of *Baden* having ordered a Body of his Forces to attack *Ebernbourg*, he encamped with the reſt of the Army near *Creutznach*, to obſerve the Mareſchal *de Choiſeul*, who lay between *Alzey* and *Oberwheim*; On the 19th in the evening the Germans made themſelves Maſters of the Town of *Ebernbourg*, the French, after ſome reſiſtance, abandoning it, and retiring into the Caſtle; which the Germans began to batter the next day, and continued to do ſo till the 27th in the afternoon, when having made two large Breaches, and having every thing in a readineſs for an Aſſault, the Gariſon Capitulated, and purſuant to what was agreed on, marched out the 28th, and were conducted to *Montroyal*. On the 19th Prince *Lewis* cauſed all the Artillery in his Army to be diſcharged, with 3 Salvo's of Small Shot, for the Signal Victory obtained by the Imperialiſts in *Hungary*.
